MAIN SKILLS

Linux	Extensive experience setting up and maintaining Linux machines, with a hobby of self-hosting services.
Python, Bash, Java, Go	Several YoE writing highly idiomatic Python and POSIX-compliant shellscript. Competent in Java, and have written several programs in Go.
Docker, Kubernetes	Have containerized several applications with thin Docker images and deployed them using docker-compose. Basic familiarity with Kubernetes.
CI/CD	Experience with setting up optimized, cache-aware CI/CD toolchains. Have worked with Github Actions and Garnix.
Nix	Special proficiency and burning passion for Nix, a build tool for stateless and reproducible software.

EXPERIENCE

Software Dev	Facilitating a YubiKey hardware key solution for employees.	 2023-09-25 - 2023-12-15  Volvo Cars
DevOps Engineer	Creating a Vault backend for the IaC tool Terraform.	 2023-12-16 - 2024-03-17  Volvo Cars
Software Dev	Writing asynchronous office occupancy software using Azure AD, Disruptive Studios and Vault.	 2024-03-18 - 2024-06-07  Volvo Cars

EDUCATION

DevOps Engineer	Studied DevOps, the intersection of programming and system administration.	 2022 - 2024  Jensen Education
